

YOUR TRUSTED PARTNER IN
**ELV, ICT & SECURITY
SOLUTIONS**

WHO ARE WE?

At ESCADA, we pride ourselves on being a rapidly expanding provider in the realms of ELV (Extra Low Voltage), ICT (Information and Communications Technology), and Security solutions. Our partnership with globally recognized brands, combined with years of industry experience and a deep understanding of security best practices, positions us uniquely to deliver innovative solutions complemented by outstanding customer service.

Our team, comprised of certified and experienced professionals, is adept at providing comprehensive services encompassing supply, installation, and maintenance of renowned products and solutions.

VISION

Our vision is to excel as the best in our class by forging long-term strategic relationships with our clients. We leverage our technological know-how and industry expertise to provide innovative, high-quality, and cost-effective solutions.

MISSION

Our mission is to offer unparalleled security services and customized, innovative solutions. By providing a wide range of high-quality products and services, we enable our clients to operate their businesses with ease and confidence in their safety and security.

Systems

OUR SERVICES

BUILDING MANAGEMENT SYSTEMS

ESCADA specializes in the installation of advanced Building Management Systems. These are computer-based systems designed for the monitoring and control of building's mechanical and electrical equipment, such as HVAC, lighting, power systems, fire systems, and security systems.

OUR SERVICES

PEDESTRIAN ENTRANCE CONTROL SYSTEM

We provide vital security for business buildings with our pedestrian entrance control systems, including:

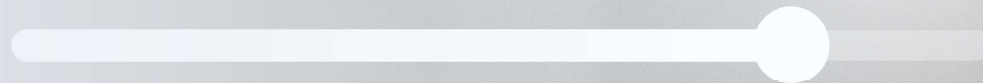

- Tripod Turnstile
- Swing Barriers
- Flap Barriers

OUR SERVICES

LIGHTING CONTROL SYSTEM

Our intelligent, network-based lighting control solutions integrate various system inputs and outputs, utilizing central computing devices for efficient control and management.

A hand holding a blue Ethernet cable connector in front of a network switch with many other cables plugged in.

OUR SERVICES

STRUCTURED CABLING SOLUTIONS

We offer comprehensive design and installation services for voice and data cabling, adhering to EIA/TIA standards and using a mix of coaxial, cat-5e, cat-6, and cat-6a copper, along with indoor/outdoor fiber cables.

WHY CHOOSE ESCADA?

At ESCADA, we don't just implement solutions; we ensure these solutions are of the highest quality, accurate, and delivered in a timely manner to meet our clients' specific requirements. Understanding the importance of reliable support, we provide round-the-clock after-sales service, available 365 days a year, ensuring that our clients receive the value-added services they deserve. This unwavering commitment to excellence in all aspects of our service makes ESCADA the ideal choice for your security and technological needs.
